

A handy guide to answer the age old question...
what the heck do I do for senior photos?!

Class of

2025

It's the **BIG** one!
This this the year of YOU,
the year you get to shine
like never before. Your photos
should reflect you
and ALL your personality!

Let's create photos that scream
who you are,

LET'S HAVE FUN!

MOJO PHOTO
so much more than just the photographer

“OMG. I have no idea what I’m doing.”

I do. We got this.

Whether it’s you, mom or dad completely freaking out, my job is to make sure you absolutely love your pics. We are gonna laugh, joke around and get into all sorts of awkward-yet-amazing poses. You will probably forget we are even taking pics and just have fun. This is what makes your true smile and personality come forth. And it’s what I love.

.....

I’ve been a professional photographer for over 20 years. And most days, I can’t even believe that myself. I’ve always loved photographing grads. I love creating unique and fun portraits that describe people as they are. Images that give off a mood, a vibe, a feeling, that tell a story of your moment in life NOW.

THE BREAKDOWN

My sessions can be curated to be exactly what you want and need. That applies to your locations, outfits, or multiple dates.

I offer a full in- studio as well as on location(s) of your choosing. So we can do just about ANYTHING you can think up.

Here's a bit what it all looks like:

.....

BEFORE: we'll pick a date & time as well as the session coverage needed. DATES BOOK FAST, so plan early! A \$50 deposit is required to secure your date. You will want to check and see if your locations need permits. Most do, & I can let you know which ones. *You are responsible for acquiring these BEFORE the session.* NO permit, no shootie.

DURING: I'm gonna shoot A LOT. I try all angles, different lighting and poses. We are going to work together to get the best images! Expect to have a blast with lots of laughs.

AFTER: This is when I do the other, unseen half of my job. I will edit, crop, retouch your images to perfection. Showing you a finished gallery of the best images. Expect these in about 4-6 weeks.

TIPS N' TRICKS

Wear varying outfits. If you have a white linen dress, don't have a white shirt and white blouse as your other outfit options. More colors / patterns / fabrics are better!

Accessorize! Bring your favorite hat, sunnies, sports equipment, flags, jackets or sweaters to throw on with an outfit for a few shots. Vary up your shoe options & maybe plan to even go barefoot!

Be you. However that manifests! Be comfortable and feel awesome in how you look. Try your best not stress out. Even if your day is a mess, my job is to make it look as if it was all calm and collected.

Splitting hairs. Bring along a brush, clip, hairband and some hairspray or gel. It can be super windy or humid out. A matte powder can help with shine.

Razor sharp! Shave your face, if applicable, and do a good job. Patchy stubble or fine mustaches are not a good look and will cost extra in editing. Try to clear up blemishes, but don't stress about them, they will be retouched!

Don't forget the details! Painting your nails, belts, ties, bras and undergarments that are hidden as well as nude in color are absolutely essential.

Be on time. Otherwise your session will be cut shorter. Schedules are hectic and I can't always guarantee extra time will be available.

.....

finally, **LET'S DO THIS!**
